Subject: Northern Pass Project

Dear Ms. Monroe,

Please direct my comments to the New Hampshire Site Evaluation Committee:

As a lifelong New England resident who enjoys outdoor recreation in New Hampshire, I am writing to oppose the Northern Pass Project. Outdoor recreation in New Hampshire brings in an estimated \$8.7 billion annually and supports 79,000 jobs. The Northern Pass Project would allow for the unfortunate development of a natural, unspoiled area that we can never get back. The Northern Pass Project will negatively impact not only the environment and habitat for wildlife, but also negatively impact those whose livelihoods rely on natural wilderness for tourism. Hunting, fishing, hiking, leaf-peeping, wildlife spotting, and camping in these beautiful areas will all be forever negatively impacted. Please reject the Northern Pass Transmission Project through beautiful New Hampshire.

Respectfully submitted,

Lori Kempton
